650 MEG. The atmospheric ambient lighting using modern LED technology provides a comfortable feeling of space in the sleeping area. Harmoniously integrated into the furniture structures, the light can be flexibly adapted to your personal needs.

Generous
single beds in the rear

Comfort for every night

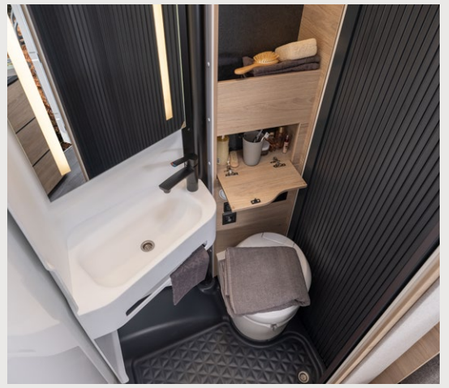

The VAN TI PLUS combines generous sleeping comfort with a well-thought-out bathroom concept. The comfortable single beds, high-quality mattresses and the flexible bathroom create a private retreat where you can completely relax after an exciting day.

650 MEG. Under the single beds, there is a generous storage space with clothes rails. The practical folding mechanism with open access makes it very easy to access.

650 MEG. In the rear, two single beds over two meters long with high-quality EvoPore-HRC mattresses offer plenty of space and sleeping comfort. Thanks to the innovative FoldXpand rear, you can enjoy additional headroom, while the single beds can be quickly connected to a spacious lawn with the optional pull-out.

650 MEG. The sink is integrated into a flexible wall, which, together with the faucet, can be swiveled across the toilet. Thanks to the practical magnetic strip, the wall snaps securely and reliably separates the wet area when showering.

650 MEG. A clever swivelling wall in the comfort bathroom ensures that you quickly have an extra generously sized shower cubicle. The smart magnetic closure ensures reliable and waterproof sealing with just one movement.

Information about all models can be found in our other catalogs.

Information on the product delivered, dimensions, mass and appearance, correspond to our understanding at the time of printing (07/2026). We reserve the right to make changes to fittings, technical data, series equipment and prices. Please make every effort to be fully informed about these matters by your authorised KNAUS dealer before making your purchase. After a contract has been concluded, we reserve the right to make technical changes within the framework of the construction insofar as they serve technical progress and are acceptable for the customer. Minor colour and texture deviations are also reserved – even after conclusion of the contract – insofar as these cannot be avoided due to the material structure (e. g. colour deviations of up to approx. 2.0 dE between paint on sheet metal and paint on GRP/plastic) and are reasonable for the customer. Some of the illustrations show equipment features that are not included in the standard equipment and that can be ordered for an additional charge (optional equipment) as well as some equipment features of prototypes/studies that do not correspond to the standard equipment and therefore cannot be ordered as optional equipment. Slight colour deviations of the illustrations in the brochure from the actual vehicle cannot be completely excluded for printing reasons. Therefore, before purchasing a vehicle, please seek comprehensive advice on the current status of the series from an authorised KNAUS dealer. The decoration shown in the catalogue is not part of the equipment supplied. Please also note the information in the current price list, in particular regarding weights, payload options and tolerances, which you can also find in our configurator at configurator.knaus.com. Please note that the number of beds indicated may include beds for both adults and children. The specified bed dimensions do not reflect the actual mattress dimensions. Bed shape may vary depending on the layout. In some cases, structural elements may partially reduce the usable sleeping surface. We therefore recommend consulting your KNAUS dealer before making a purchase decision to discuss the dimensions of the sleeping areas in the vehicle and determine whether they are suitable for the intended occupancy (adults/children). Your KNAUS dealer will be happy to advise you. Reprinting, even in extracts, is only permitted with the prior written permission of Knaus Tabbert AG.
